**TTh 3:20-4:55**

**5 units**

**In person**

**Fulfills PR-S GE**

**Instructor: Mark  
Baker**

## **COURSE DETAILS:**

Examines the complexities of food systems with special attention to labor practices, food access, and food production. Students consider the nature of culture in advancing problematic notions of food options and sustainability. Students develop a research-based service-learning project in connection with a local organization of their choice through this class.
